

Interpersonal Skills Development Training

Elevating Your Interaction Skills A 2-Day Training Workshop

The ability of an employee to interact with others effectively is key to the success of any organization. Interpersonal skills are a result of a person's collective experience and learnings. While not everyone is on the same level when it comes to interpersonal skills, there is always room for improvement through conscious effort and practice. This course aims to help each employee develop and improve their interpersonal skills.

Course Objectives:

For the Participants To:

- Revisit their interpersonal skills through a self-assessment
- Identify their strong and weak points as their starting point
- Spot areas for improvement in their interpersonal skills
- Enhance their Interpersonal Skills through an action plan
